THE EFFECK OF EDUCATION THROUGH THE LANDLORD'S GAME ON LEVEL OF KNOWLEDGE ABOUT SEXUAL VIOLENCE

CII + 99 things + 7 tables + 8 figures + 16 attachments

Background : Most victims of sexual violence are children. Many children continue to have their rights violated and lack adequate protection from their family, community or government. They are also victims of violence, exploitation, abuse and inhumane acts. Sexual violence against elementary schools, especially in Semarang, is very worrying.

Research Objective: The aim is to find out whether there is an effect of providing education on the game The Landlord's on the level of knowledge about sexual violence.

Research Method: This research uses a quantitative method with a one-group pretest- posttest design without a control group. The sample in this study was 38 respondents. Bivariate data analysis used the Wilcoxon test.

Research Results: Data collection using the Wilcoxon test obtained a *p-value* = 0.000, namely *p-value* <0.05%, so H_a was accepted and H_o was rejected, which means there is an influence of education through the game The Landlord's on the level of knowledge about sexual violence. This research was conducted at SMA Negeri 6 Semarang City, carried out for 1 day, namely on Wednesday, June 12 2024, involving 38 respondents consisting of 19 women and 19 men. By being given a duration of ± 35 minutes to provide the game The Landlord's and a time of ± 20 minutes to provide sexual violence material, according to what was scheduled by the researcher, the research was carried out once.

Conclusion: There is an influence of education through the game The Landlord's on the level of knowledge about sexual violence in SMA Negeri 6 Semarang City.

Keywords: Game *the landlord's*; Sexual violence; Level of knowledge; Teenage concept.
